

2002 EQIP Scoring Worksheet - Forest Health and Management

Applicant _____ Date _____

Farm Number _____ County _____

Tract Number(s) _____ Evaluator _____

Forest Ac. _____ Total Tract Acres _____ Forest Acres under Contract _____

	Possible Points	Points Awarded
Planning Extent		
100% of forested tract acres under contract	20	_____
50 - 100% of forested tract acres under contract	10	_____
<50% of forested tract acres under contract	5	_____
Conservation plan includes multiple practices on the forest land	5	_____

Special Resource Concerns (present and addressed in EQIP contract)

Red oak borer infestation on tract *	10	_____
Oak wilt infected areas on tract*	10	_____
Oak on native pine sites (soils developed from acid sandstone in Ozark Region)	10	_____
Eroding harvest trails and landings	20	_____
Post harvest, stand restoration need *	10	_____
Forest grazing by domestic livestock	20	_____
Over stocked stand(s) - stocking exceeds 100 percent (A line) *	10	_____
* A competent field determination is required.		

Special Feature Areas (present on contract acres)

Karst areas	5	_____
Riparian /floodplain areas (100 year flood)	10	_____
Wetland areas	10	_____
Wild and Scenic River watersheds (Current, Jacks Fork, and Eleven Point Rivers)	5	_____
High risk areas for gypsy moth - (Category I areas) within a listed county:	5	_____
St. Louis, St. Charles, Jefferson, Franklin, Platte, Clay, Jackson, Greene, Stone, Cape Girardeau, and Pulaski		

Number of additional resource concerns addressed with
 assistance provided under this EQIP contract _____ **X 15 =** _____

(add all points from above)
TOTAL ENVIRONMENTAL SCORE for FOREST LAND **sum =** _____
